

# 2ND GRADE

Looking Towards Spring!

Dear Second Grade Families,

Tomorrow on Friday the 13th, the students are going to celebrate Reading Across America! Please have your child wear an outfit to match their favorite character from a book to wear at school.

Next Thursday, the First and Second Grade will be going to the Montshire Museum of Science. You will find a permission slip in your child's folder. This will be an exciting trip. We will get a chance to visit the Star Lab to learn about Astronomy. Please send this back by Tuesday. The School Club has generously paid for the busing to take us on this trip.

On Monday I sent home the Unit 11 Foundations packet. This is due back on March 23rd. This unit focuses

on the three double vowel long e sounds.

I was very happy to see how well the Second Graders did on their last Math test. In Math class, I have added new math centers, and I will be creating new centers and work based off of the Star 360 Assessment to focus on specific math goals for each student. In their math books we are working on subtracting and regrouping up to the hundreds place.

In Science, we have been experimenting with objects that float and sink. Please ask your child about using clay and tin foil to float washers and pennies. Next week we will look at oobleck and discover whether it is a solid or a liquid,

Tomorrow is the last day of skirrunners. Good Luck!

## Weekly Events

Friday, 13th

Read Across America

DRESS AS YOUR FAVORITE BOOK CHARACTER

Monday, 16th

There will be a substitute teacher in for me.

Thursday, 19th

Trip to the Montshire Museum of Science

Our New Class Student- Oliver The Hamster!
