# HAPPY HOLIDAYS

Dear Second Grade Families,

This week we are starting Unit 7 in Foundations. This unit focuses on open syllables and lasts for three weeks. Today in your child's folder you will find unit 7, which is due back on January 13th. There will be a test on January 14th.

In Math, we are continuing to work on subtracting two-digit numbers. There will be a math test on Thursday. This week in Science we are finishing up on weather and will moving onto learning about the properties of classifying liquids and solids.

On Tuesday the 23rd, I would like to do a holiday party with the kids. This will include making crafts, and playing games. If you would like to send in a treat for the kids, it would be appreciated. I will bring in a fruit drink along with a treat.

This week on the 18th there is a holiday Bazaar. Please send in money with your child if you would like them to buy gifts for your family and friends.

I am also planning on taking the kids ice skating during recess when it is colder and the ice freezes. I will let you know in advance, so you can send in ice skates. If your child doesn't have ice skates, there is usually a pair that will fit them at school. I do ask that children also wear a helmet while ice skating, unless permission is given otherwise.

I hope that you had a great weekend and have power back if you lost it. Have a wonderful week!

Mrs. Hook
