

Dear First and Second Grade Families,

Today you will find a Flat Stanley project in your child's folder. Flat Stanley is a character who travels all around the world. Each student has two papers with an envelope. One page will be sent to a friend or family member. The other paper describes the project for you. All Flat Stanley materials will need to be back by May 13th. This gives students time to present to the class about their Flat Stanley's adventures. We are very excited and we can't wait to see where he will be traveling to!

Each student also has a homework sheet that they will need your help with. Please help your child write your home address and phone number. We will be using this for a state map of Vermont.

Next week we are planning on starting seeds in egg cartons. If you have extra vegetable or flower seeds, please send them in.

In Social Studies we have started a state book on Vermont. Please ask your child if they can name the symbols in the Vermont state flag and some facts about Vermont.

First Grade Foundations:

We have completed the unit 11 Foundations test.

First Grade Math:

Second Graders will have a Foundation's test on Wednesday 13th.

Second Grade Math:

Students are working on learning different types of graphs. They will have a chapter 9 test on Thursday, 14th.

Have a great weekend!

Mrs. Hook, Mrs. Brown
